

YARD WASTE

On **Tuesday, November 17, 2009** the City of Angels will be conducting a **FREE** pickup of yard waste at the curb by your house! Branches, leaves, grass, weeds, shrubs, etc., will be taken! Items such as lumber, bender board and other trash should be thrown out with the regular trash.

This is a residential pickup and is limited to four cubic yards per residence (that is about one large pickup size load)

SEI, the City's franchised waste collection company, will be doing the yard waste collections. Only yard waste will be collected at the curbside. Please help us by doing the following:

- * Trash needs to be at the curb by 6:00 a.m., Tuesday morning, November 17, 2009. SEI will only make **ONE** round through the City. If your yard waste is not at the curb when they come by, there will be no second chance.
- * Leaves, grass, weeds and other small yard waste should be put at the curb in bags or garbage cans.
- * Branches, sticks and small logs should be bound together in manageable bundles.
- * Larger logs should be cut to a size one person can lift into a truck.
- * Please keep the sidewalks and streets clear of yard waste and debris.
- * If your yard waste is not collected on the 17th, call SEI at 795-1532.

This is a service of the City of Angels for the benefit of its residents. If you have any questions please call City Hall at 736-2181.
